Sir:

In response to the Office Actions dated August 24, 2004 and May 3, 2005 applicant, through his undersigned attorneys, amends his above-identified patent application as follows and respectfully requests reconsideration.

Please delete the Abstract of the Disclosure and substitute the following therefore:

--A unit for storage, display and continuous easy access to articles. The storage unit has a top and a bottom with a cell structure having a plurality of cells positioned between the top and the bottom. Each of the cells of the storage unit can store and display a plurality of articles, such as compact discs, while allowing easy and continuous access to the articles. The cell structure is rotatably connected to a base that permits the cell structure to rotate about an axis perpendicular to the base, so that access to all cells is facilitated.--
